Figure 1: MyTextEvent's path through the system in the editor as provided and in our version.

1 Conclusion

A Finding the Code and Running the Editor

The file `Code1864-ex09.zip` contains a Maven repository with the source code and a JAR file being the executable editor. From the root directory it can be run with `./run.sh`. The code can also be found online at wiply.neic.dk/au/ddist/Code1864-ex09.zip.
